**WALKER STILL HAS FAITH IN COOL.**

**Says Many Reputable Engineers Endorsed It—Mark Twain a Shareholder.**

George L. Walker, the copper expert, gives the following relative to Utah Consolidated, now in the dumps.

"I have consolidated stock has been sold and neglected. Reports from the property are conflicting, some claiming a current daily production of 1,000 tons, others stating only about 450 tons is going to the smelter. The truth is that shipments have fluctuated very greatly. Of course no effort has been made to force production until there is further improvement in the metal market.

A good deal of interest has been aroused by the fact that the late Mark Twain, who was known to be a very close friend of the late H. H. Rogers, left his family about 7,000 shares of Utah Consolidated stock. It is known that Mr. Rogers was a strong believer in Utah Consolidated, and that his confidence in it was strengthened by the reports of numerous engineers who have examined the mine from time to time.

When the Amalgamated United Metals Selling interests organized the International Smelting & Refining company, and before they began the construction of the new plant at Tooele, they had the Utah Consolidated property very thoroughly examined by three or more different engineers. Geological maps were prepared by the chief geologists of the Amalgamated company, who spent several weeks at the Utah Consolidated mine. These investigations satisfied the International Smelting & Refining interests that the property could be depended upon to produce a sufficient tonnage of ore over a long period to warrant the construction of the Tooele plant.

I could write pages quoting reputable men's endorsements and the general information, all of which tend to prove that Utah Consolidated's property is very valuable; that its ore bodies unquestionably go to great depths; that its lands have been only partially prospected; that it has ore enough to last for more than three years, an abundance of working capital, etc. In the coming improvement in the copper share market, Utah Consolidated stock should sell very much higher.

## DIVIDENDS BY SOME OF THE BIG ONES

During the eleven months of 1910, there was paid to holders of the stock of 135 American mines and metallurgical works, \$66,948,163. Not included in this amount is the \$124,000 disbursed by nine securities holding corporations, which look for their profits from stocks and other securities.

Since incorporation these 135 mines and works paid out in the shape of dividends the following amounts: \$70,936,528. On the issued capital of these companies, which is \$61,913,734, this is a return equivalent to 11.45 per cent. In excess of capitalization, of \$9,024,834.

At the head of the dividend list for the year stand the companies classed as gold-silver-lead-zinc producers, for 12 of these have, so far this year, divided among their shareholders \$25,357,809, making a grand total since incorporation of \$219,490,114. This is equivalent to an 85 per cent return on the outstanding capitalization of \$256,239,174.

Of the 192 companies mentioned above, sixty operate properties in the United States, and they contributed to the eleven months total \$17,583,431, and to date \$17,597,199, an eighty-six per cent return on the outstanding capitalization of \$20,450,000. The companies leading in disbursements for the year rank as follows: Goldfield Consolidated, \$7,118,126; Tonopah, \$1,500,000; Homestake, \$981,000; Bunker Hill and Sullivan, \$925,350.

Although ranking second for the year in point of dividends paid, the copper properties, numbering twenty-four, all but one operated in the United States, and they divided among their shareholders since their incorporation the grand sum of \$361,781,623. This, on their combined issued capital of \$124,614, makes the remarkable return of 289 per cent, an achievement duplicated by but few companies operating in other lines of industry.

These twenty-four companies have paid so far this year \$22,129,129. In point of dividends paid, according to their ranking are the following: Utah Copper, \$3,476,726; United Verde, \$2,475,000; American, \$2,400,000; Calumet and Hecla, \$2,200,000; Nevada Consolidated, \$1,800,000; Boston and Montana, \$1,400,000; Arizona, \$1,035,017.

**CHICKENS ARE GOOD MINERS**

Nuggets were unearthed and gold was found in the fowls that scratched in the dirt, November 19, at the Gus McFarlane ranch near Hartford, in the west of Spokane on the Medical Lake and Cheney electric line of the Washington Western Electric company, where excavations were being made for building.

Mr. McFarlane stated the facts to R. Lewis Rutter, secretary to the Lewis & Eastern Trust company, who is giving the information, that there were no nuggets in the dirt, but the fowls of the reports and that the fowls would justify an immediate investigation. Mr. Rutter's company was immediately take charge of the work of mining the nuggets, the work to begin at once.

The nuggets were found as a result of the conclusion that other nuggets are to be found in that vicinity. An excavation was being made for a building on the farm when the nuggets were found, as it had been noticed that the chickens had been around where the nuggets were found, and that the nuggets were small pieces of gold were found.

# MINES

**Notes on Mills, Mines and Quartz Discovered Showing Prospects—Rich Rock at Monte Cristo.**

Three pounds of amalgam worth about \$200 the daily production of the new stamp mill of the Amalgamated Nevada company at San Pedro. The ore being handled comes from the Blackhorse mine north of the Blackhorse mine, which is owned by the company, though it is planned to take custom ores as well as the mill, which will prove a boon to many prospectors owning claims in the Blackhorse district, says the Fly Examiner. The mine is reported to be working successfully and the result of its start-up has been an increased amount of prospecting for ore shoots along the many known lodes of the district.

General Manager Burritt is quoted as saying the miners in the San Pedro are breaking ore from a four-foot ledge and that the daily production of the mill is \$200 in gold and silver ready for the mill, and there will be no lack of quantity to keep the ten stamps pounding regularly. The mine is now being employed at the mill and in the mine.

The Blackhorse district was created about four years ago following the discovery made by Thomas Watkins, who named the Blackhorse mine. A big rush ensued from Ely and more distant places, and for some months it was one of the most active districts in the state. Some prospectors rich ore was found on the Mabel claim east of San Pedro, and the Blackhorse district was opened in the heart of the Blackhorse mine. The Blackhorse mine was formed the Amalgamated Nevada Mines and Power company, and started to mine the whole district, as well as the Cleveland ranch in Spring valley and a number of ranches in the Blackhorse district. Several hundred thousand dollars, but spread it around too thin with the result that he failed to protect the Blackhorse mine, and the company went to the wall and was sold out. The San Pedro mine was bought up by a new Amalgamated Mines company that is now achieving success as a producer of gold bullion.

W. J. Wallace of Cherry Creek says that outside of the operations at the Star mine of the Glasgow and Western Exploration company and scattering small claims, the Blackhorse district is very active in a mining way. At the Blackhorse mine about sixty men are employed in the mine and mill and regular shipments of ore and concentrates are being made. According to reports the Blackhorse mine is now producing about 100 tons of ore a week. The Blackhorse mine is now producing about 100 tons of ore a week.

The Stuart Gold Mines Holding company, of which property Mr. Wallace has not done any work since this year, though the necessary assessment work will be attended to before the end of the year. The same applies to the Hartford Nevada company, which is also in charge of Mr. Wallace. These two companies are in the Colorado district. The Stuart Gold Mines Holding company is a small stake in their mine, and the Hartford Nevada company is a small stake in their mine. The Stuart Gold Mines Holding company is a small stake in their mine, and the Hartford Nevada company is a small stake in their mine.

**BOLD BOY THIEVES DISMANTLE MINES**

A Nevada special to the Sacramento Union says: That two boys have stolen hundreds of dollars' worth of brass and other metal from the machinery of abandoned mines in Nevada. The boys were arrested by the Nevada State Police, and the mines were dismantled. The boys were found with a large quantity of brass and other metal, and the mines were found to be abandoned. The boys were found with a large quantity of brass and other metal, and the mines were found to be abandoned.

**SECOND LARGEST IN UNITED STATES**

Six sections of the Arthur mill of the Utah Copper company, which is the second largest in the United States, are being dismantled. The mill is being dismantled because it is no longer needed. The mill is being dismantled because it is no longer needed.

**BURRO SHIPMENTS OUT OF WHIPPLE WASH**

Yesterday Colonel Kit Carson received a letter from Charles Adams, vice president of the Golden State, in which he said he had just come up to Parker from the property for supplies and that they were getting tired of hearing about other shipment from the place where the \$725 was found. The ore is being mined and will be sent out on burros about 200 pounds to the smelter. Mr. Adams complains that this is a slow process and that they must have the concentrating plant to the smelter. The property is being worked. "Values continue and the ledge looks better after every crack of the pick," Adams writes. "Rogers found another ledge close to the one he is working. I have told you about so many strikes you must be getting tired of hearing about them. What we need is a mill and also a shaft sent down 200 to 300 feet. We have one of the biggest things in this country if we can just get down on it." The colonel says arrangements are nearly concluded whereby a mill will be put on the property, when things will begin to hum down on Whipple Wash.

**PROBATE AND GUARDIANSHIP NOTICES.**

(Consult county clerk or the respective signers for further information.)

**IN THE DISTRICT COURT, PROBATE DIVISION, IN AND FOR SALT LAKE COUNTY, STATE OF UTAH.**

In the matter of the estate of Edward H. Airis, deceased.—Notice.

The petition of George E. Airis, administrator of the estate of Edward H. Airis, deceased, praying for an order of sale of real property of said deceased, is filed for record in the probate division of the district court of Salt Lake county, Utah, on the 23rd day of December, A. D. 1910, at 2 o'clock p. m., and the said court has set for the following described real estate or said deceased, to wit: An undivided one-half interest in the following described property, to wit: Lots 1 to 14, both inclusive, in block 33; lots 1 to 14, both inclusive, in block 35; lots 1 to 14, both inclusive, in block 36; lots 1 to 14, both inclusive, in block 37; lots 1 to 14, both inclusive, in block 38; lots 1 to 14, both inclusive, in block 39;
